

Aircraft component OEMs, MRO facilities and operators depend on Testek Solutions for highly reliable aerospace test equipment to certify hydraulics, power generation, avionics, fuel, lube, actuator, and pneumatic components. With a 50-year track record of success, Testek uniquely holds long-term OEM partnerships, provides the industry's leading equipment warranty, and support from a dedicated worldwide team.

We are actively seeking an **Electronic Test Technician** to work with a worldwide dedicated team by being responsible for fabrication, modification, testing, and quality control of electronics hardware circuits.

Job Responsibilities:

- Responsible for reading and understanding hardware circuit wiring diagrams and schematics
- Troubleshoot electronic circuits
- Assembly of surface mount and through hole PCBs to meet IPC-610 standards
- Review and update PCB request logs
- Update and maintain PCB inventory and lab assets
- Create and inspect cable assemblies to meet IPC-620 standards
- Utilize guidelines from Design Engineer(s) for assembly of prototype PCBs

Requirements:

- 2 – 5 years of experience with DMM, soldering iron, AC/DC power supplies, oscilloscope, and functional generators
- Minimum of a HS Diploma

Preferred:

- IPC-160 Certification
- IPC -620 Certification
- J-STD-001 Certification
- AutoCAD

Testek Solutions requires all new hires submit and pass a pre-employment drug screen, credit check (when applicable), and background check prior to beginning employment.

Testek Solutions is an affirmative action and equal opportunity employer.
