

Aircraft component OEMs, MRO facilities and operators depend on Testek Solutions for highly reliable aerospace test equipment to certify hydraulics, power generation, avionics, fuel, lube, actuator, and pneumatic components. With a 50-year track record of success, Testek uniquely holds long-term OEM partnerships, provides the industry's leading equipment warranty, and support from a dedicated worldwide team.

We are actively seeking a **Project Manager I** and the sky is the limit with Testek Solutions! Work with a worldwide dedicated team to focus on the execution and delivery of test stands and related equipment by supporting various program teams (engineering, manufacturing, aftermarket) to meet project schedule and budget.

• **Job Responsibilities:**

- Identify all program deliverables including equipment, data, and services
- Perform planning appropriate to the program scale and complexity
- Develop budget and schedule contingencies, manage critical path effort, and practice cost/schedule compression
- Pursue increased program profits through costing reductions and/or adjusted program scope with corresponding pricing adjustments
- Identify risks impacting cost, schedule, and performance
- Monitor program costs, schedules, and deliverables
- Perform root cause analysis using appropriate tools to flesh out clear problem statements, root causes, and effective sustainable solutions
- Provide daily summary of key successes, failures, and corrective action plans
- Chair effective meetings, understand and manage diverse personalities and purposes in a dynamic group setting, and communicate meeting outcomes and expectations.
- Prepare materials for project initiation discussions, program and technical design reviews, and department and company meetings
- Provide material summary and detail appropriate for the audience and with depth as needed for subject matter experts
- Develop an understanding of the suppliers, customers, products, and projects necessary to engage all key stakeholders as required for program success
- Capture lessons learned, engage in kaizen and similar continuous improvement activities
- Articulate program visions, leverage internal and external resources to achieve project goals, and engage all stakeholders in planning

Requirements:

- Bachelor's degree (Science/Engineering) and 2 – 4 years of experience OR associate degree and 4-6 years of experience
- Project Management Professional (PMP) and/or Certified Associate in Project Management preferred
- AutoCAD, MS Visio and Salesforce preferred (preferred) and
- MS Project (intermediate user level required)
- Experience with ERP system
- Valid US Passport is required to support international (as safety permits)

Testek Solutions requires all new hires submit and pass a pre-employment drug screen, credit check (when applicable), and background check prior to beginning employment.
